

VERNICI PER LEGNO

# PRE-CATALYZED COATING PRT100 series

ICA is proud to compliment its line of European finishes with the PRT100 series of self seal pre-catalyzed lacquers. Along with being easy to use, they are suitable for all interior wood products requiring high performance in an economical finishing system.

## Features:

- Good chemical resistance
- High solids
- Water white/low yellowing
- Good scratch resistance
- Fast drying
- Can be force dried
- Excellent flow, build & sandability
- Low odor
- Meets KCMA specifications
- HAPS compliant
- Self sealing & may be sprayed "from the can"
- Excellent adhesion
- Conforms to European E1 standards on formaldehyde content

ICA PRT100 series may be sprayed by conventional spray, HVLP, air assisted or airless systems, normally at from 4 to 6 wet mils.

### Available in the following gloss levels:

**PRT100G20 = 20 SHEEN**

**PRT100G60 = 60 SHEEN**

**PRT100G40 = 40 SHEEN**

**PRT100G80 = 80 SHEEN**

When used according to the TDS, PRT100 series meets or exceeds the KCMA performance requirements for finishes, including Chemical resistance, Cross hatch, Printing, Blocking, Hot & Cold check & Edge Soak.

### Chemical Resistance Testing (all 24 hour tests unless otherwise stated)

Water	no effect	Vinegar	no effect
Coffee	no effect	Grape Juice	no effect
Tea	no effect	Olive Oil	no effect
Ketchup	no effect	Ethanol/Water	no effect
Mustard	slight effect	MEK (200 double rush)	slight effect
Lemon Juice	no effect		

See Product Data Sheet for detailed technical information.
